EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Timothy E. Tracy on 05/29/07.

The application has been amended as follows:

Claims 7, 8 and 11-15 have been cancelled.

The following is an examiner's statement of reasons for allowance:

The closest prior art, Smith or Harbit, teaches tablet comprising sustained release, or sustained and immediate releases dosage form. However, Smith or Harbit does not teach the swallowable tablet consisting essentially of only the immediate release dosage form of at least 60% acetaminophen, about 1% to about 10% powdered wax having particle size of about 5 to about 10 μm , and less than about 25% of a disintegrant. The specification shows the unexpected result from the claimed immediate release tablet in that the total amount of acetaminophen in the tablet is completely released by 30 minutes in pH 5.8 buffer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1615

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 1, 3-6, 10 and 17-19 are allowed.
